Jack's Boat 杰克的渔船

Nick Bruce (美) 著

Jack is a fisherman.
He has a big fishing boat.
Every day Jack goes out to sea.
He takes his boat out to sea
to catch fish.

People work on Jack's fishing boat.
They are called the crew.
The crew help Jack catch fish.

The crew throw the fishing nets
into the water.

The crew drag in the nets.
Then they sort the fish.

At the end of the trip,
Jack takes the boat back to the dock.

The crew unload the boat.
They load the fish onto a truck.
The fish are ready to be sold.

The fish are taken to the market.
The buyer at the market
checks the fish.

When Jack sells his fish,
he gets money.

Jack uses some of the money
to pay the crew.

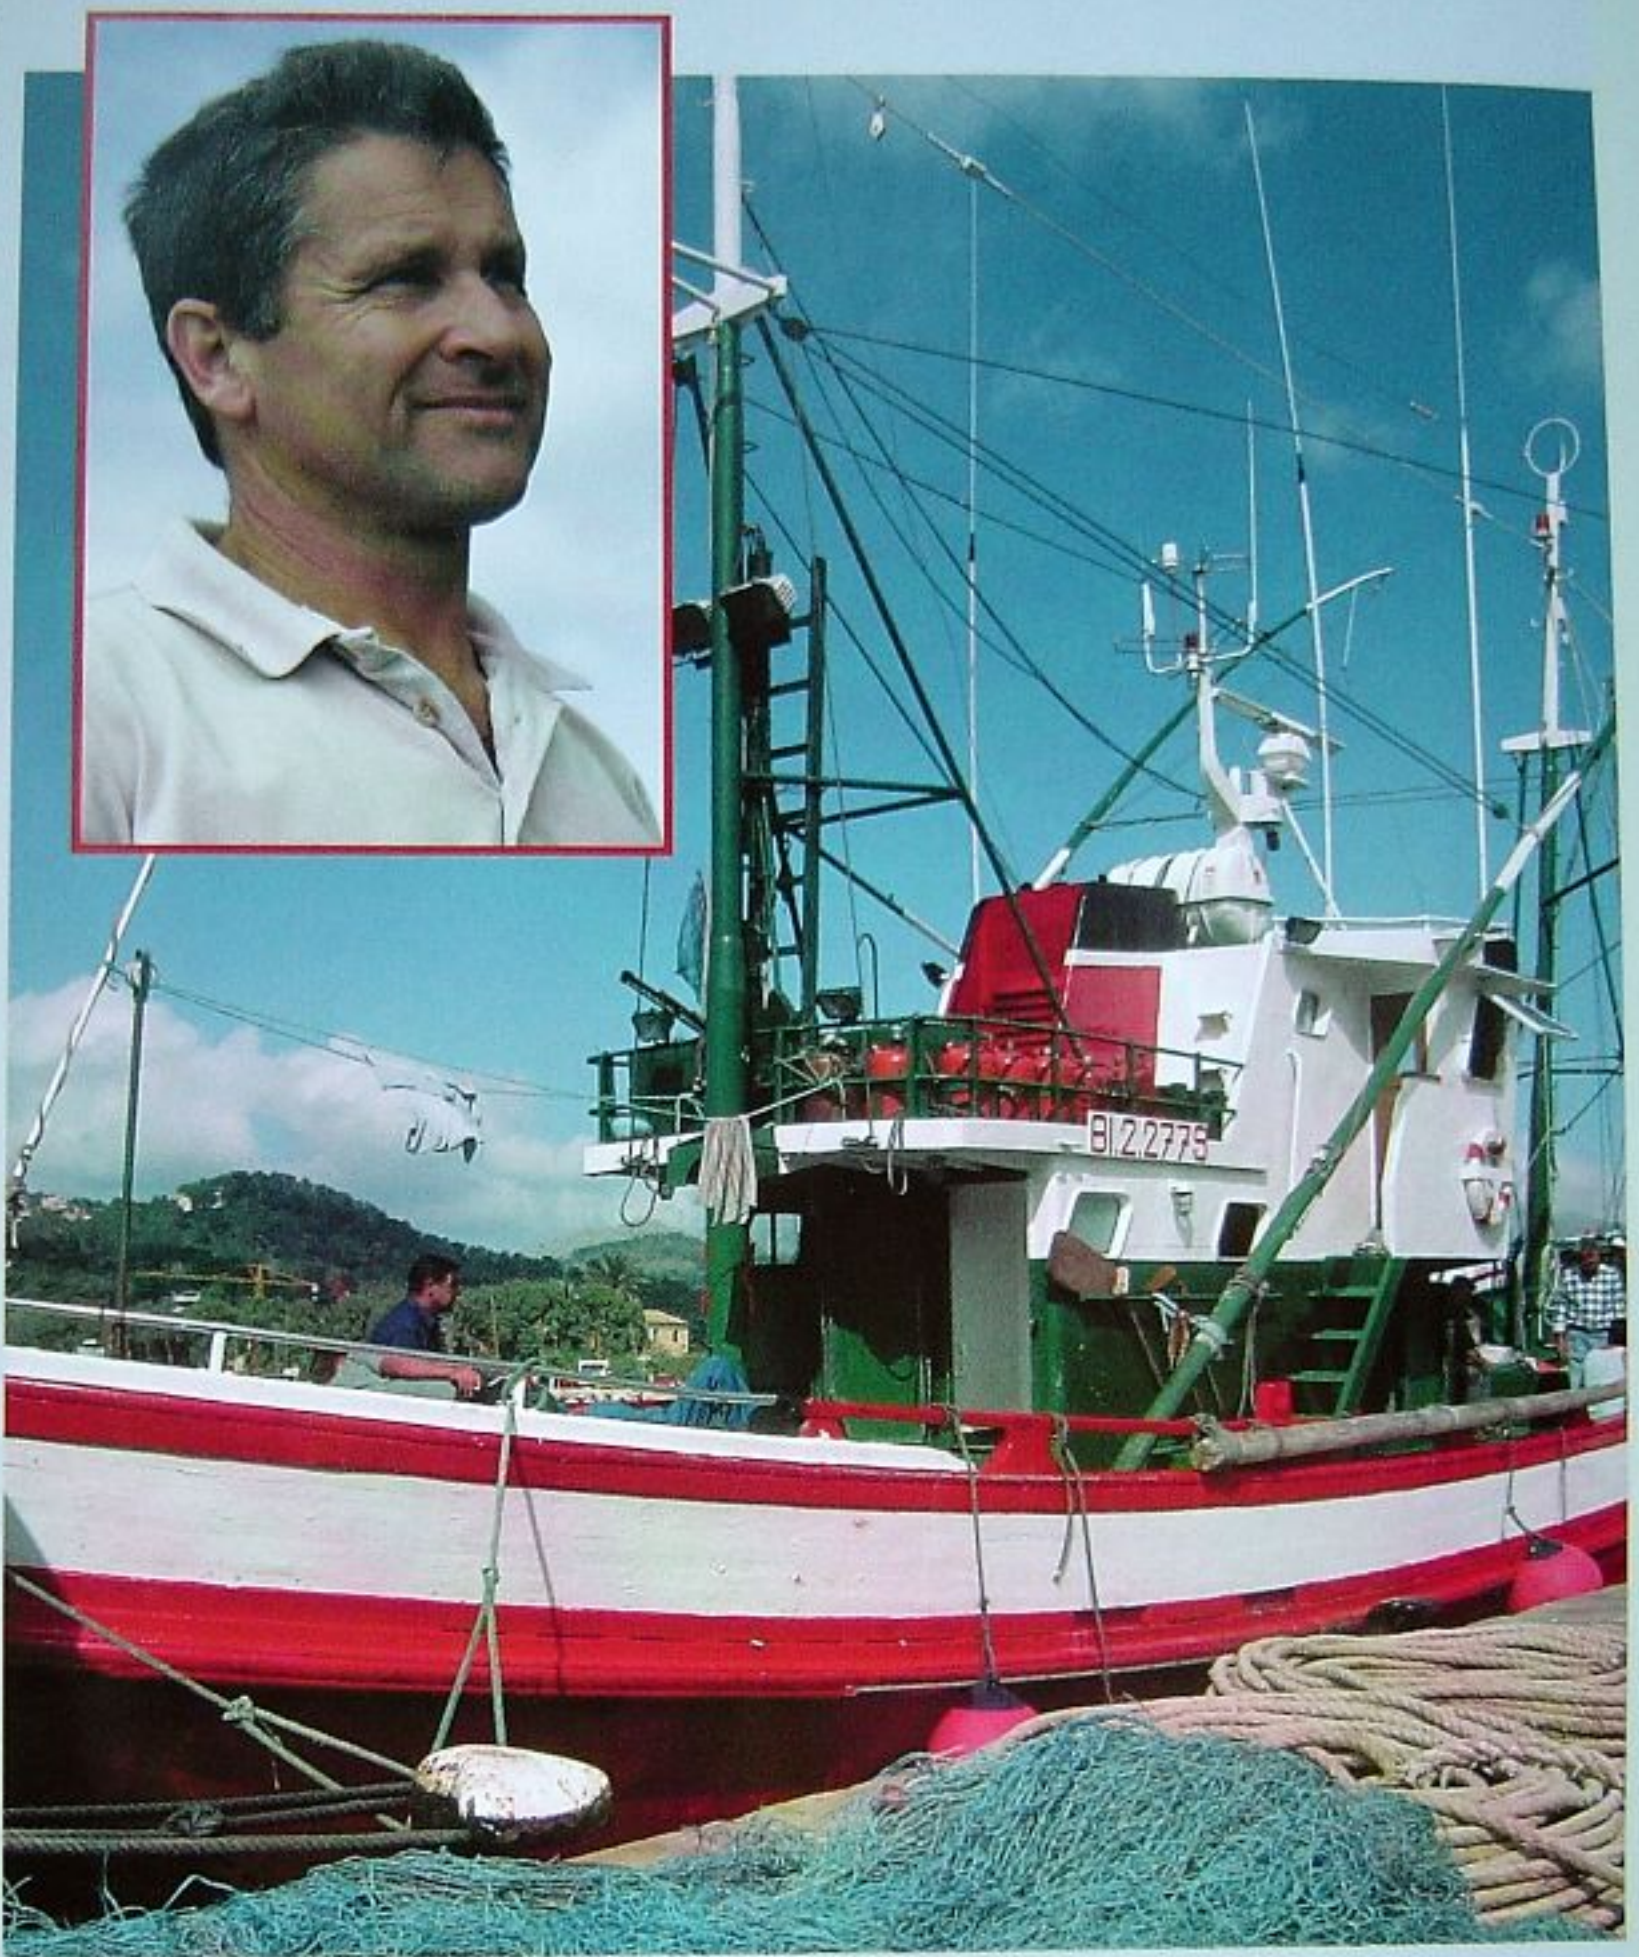

Jack uses some of the money to buy things he needs.

Jack uses some of the money to buy things for his boat.

One day Jack will use his money
to buy a bigger boat.
Then he can catch even more fish!

.....Think and Discuss.....

Jack gets money for catching fish.
What does he do with the money?
