#### 看看我们能学到什么

#### 学习语言

#### 词汇

★单词量: 149

★高频词: grow, little, pull, some

★主题词: peanuts, roasted, oil, seeds, farmers, soil, leafy, plants, flowers, petals, peg, pod, machine, factories

#### 拼读细解

★辅音组合: pl, gr, sp, st, fl (plant, grow, special, stem, flower)

★元音: a, i, ee, oa (made, takes, taken, ripe, seeds, roasted)

★词尾: -ed (roasted, called, turned)

#### 理解与思考

★概括一下本书的内容

★借助插图或标注来理解课文

★了解事情发生的次序

★了解某一过程的各个步骤

#### 听、说、写

★拼写句子中的主题词

★回答课文中提出的问题

★让孩子用已知的植物生命周期知识和其他小朋友一起讨论

#### 学习科学

#### 动脑筋 学知识

★懂得植物有生命周期

★了解花生生长需要的条件

★说出花生这种植物的特性

★了解花生生长周期中各个阶段的次序

★了解花生生长和收获过程中的步骤

#### 丰富科学知识

尽管名叫peanut, 花生却并非坚果 (nut)。花生是可食的豆科植物, 其果实长在地下。其他种类的豆科植物还包括蚕豆、豌豆和扁豆。

在美国,收获的花生半数被制成花生酱。还有一小部分被制成花生油。其他花生制品还包括炒花生和动物饲料。

# Peanuts

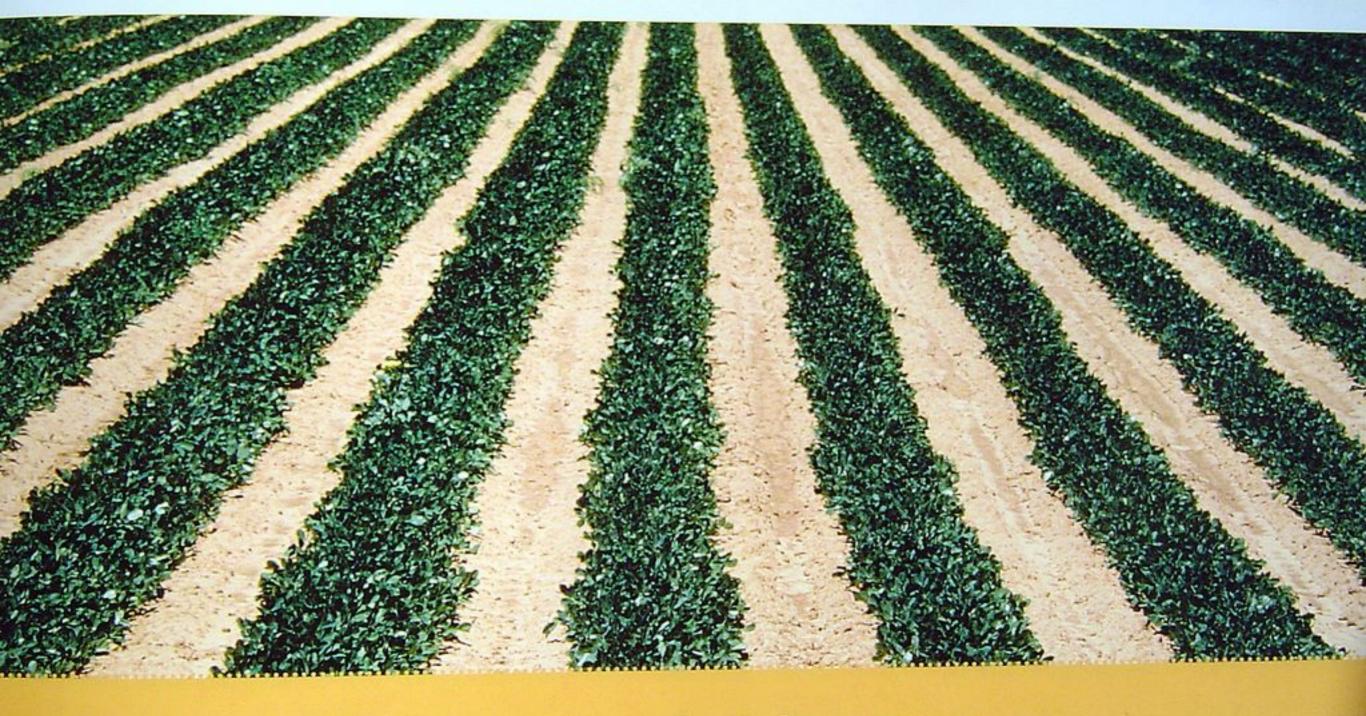

Pamela Graham (美) 著

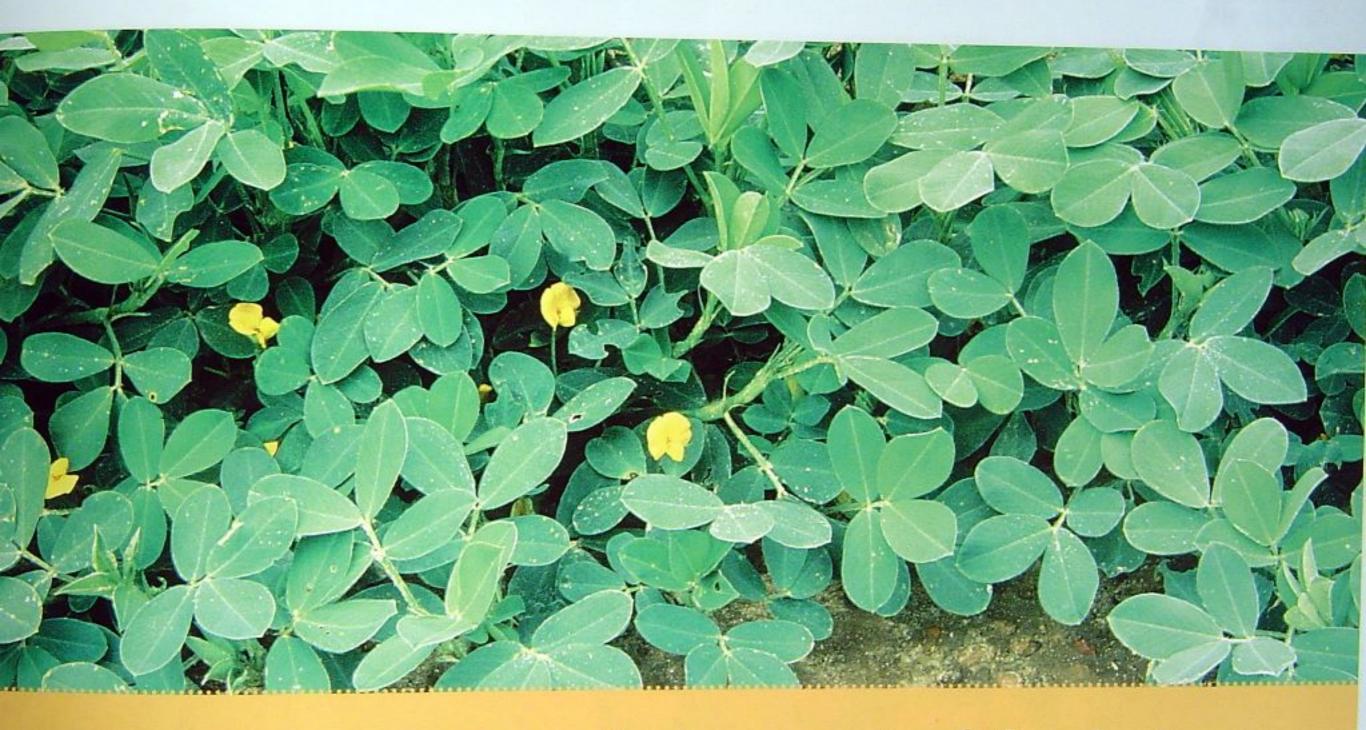

Not all peanuts are made into these things. Some are kept as seeds.

Farmers plant peanut seeds in long rows.

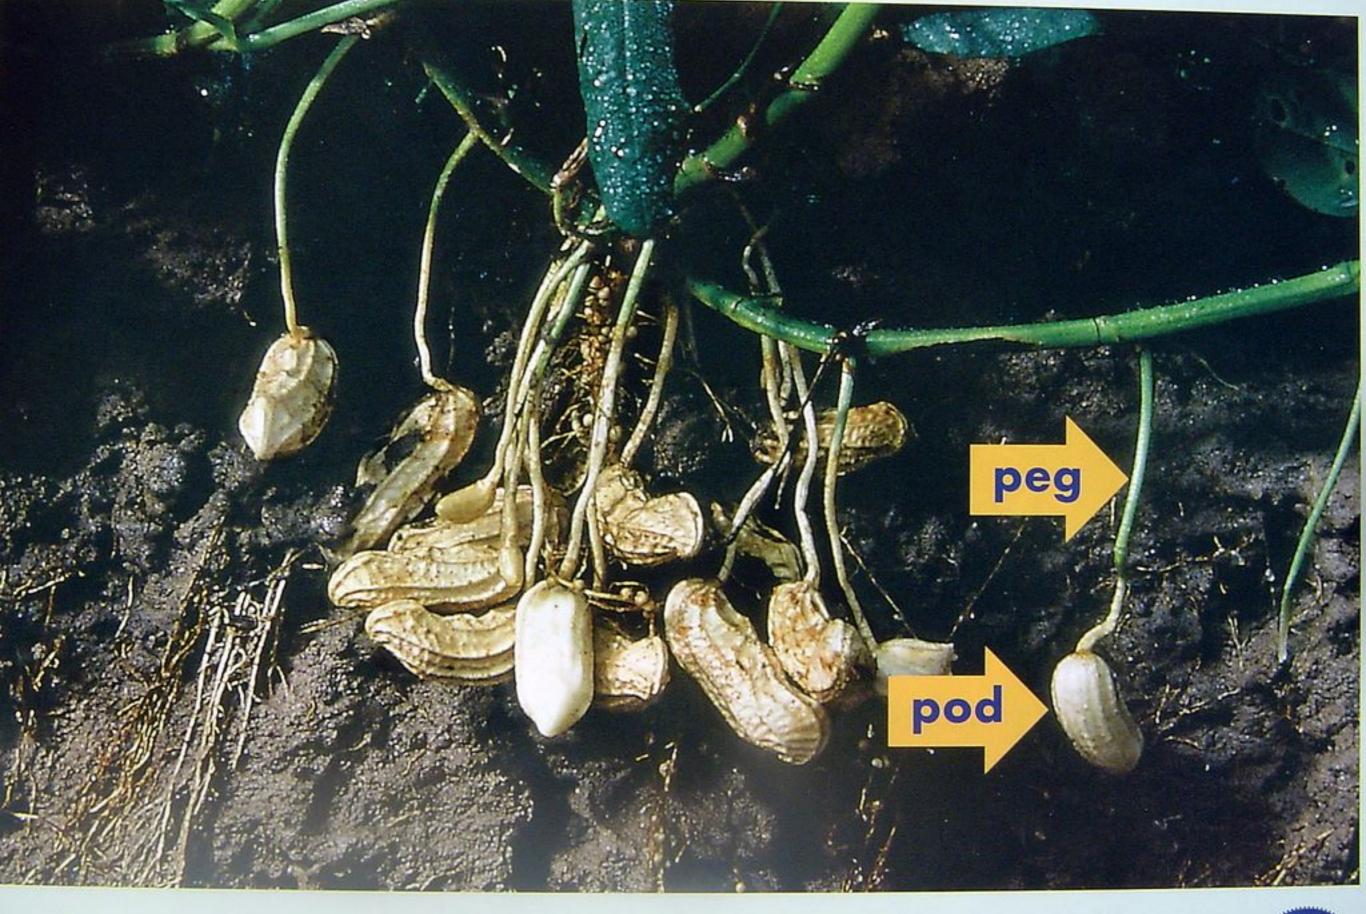

Warm soil and water help the peanuts grow into leafy plants.

Little flowers grow on the lower parts of the plants.

When the petals die, a special stem grows down from the flower. This stem is called a peg. It pushes itself into the soil. The peanuts grow inside a pod at the end of the peg.

When the peanuts are ripe, the farmer uses a machine to pull the plants from the ground.

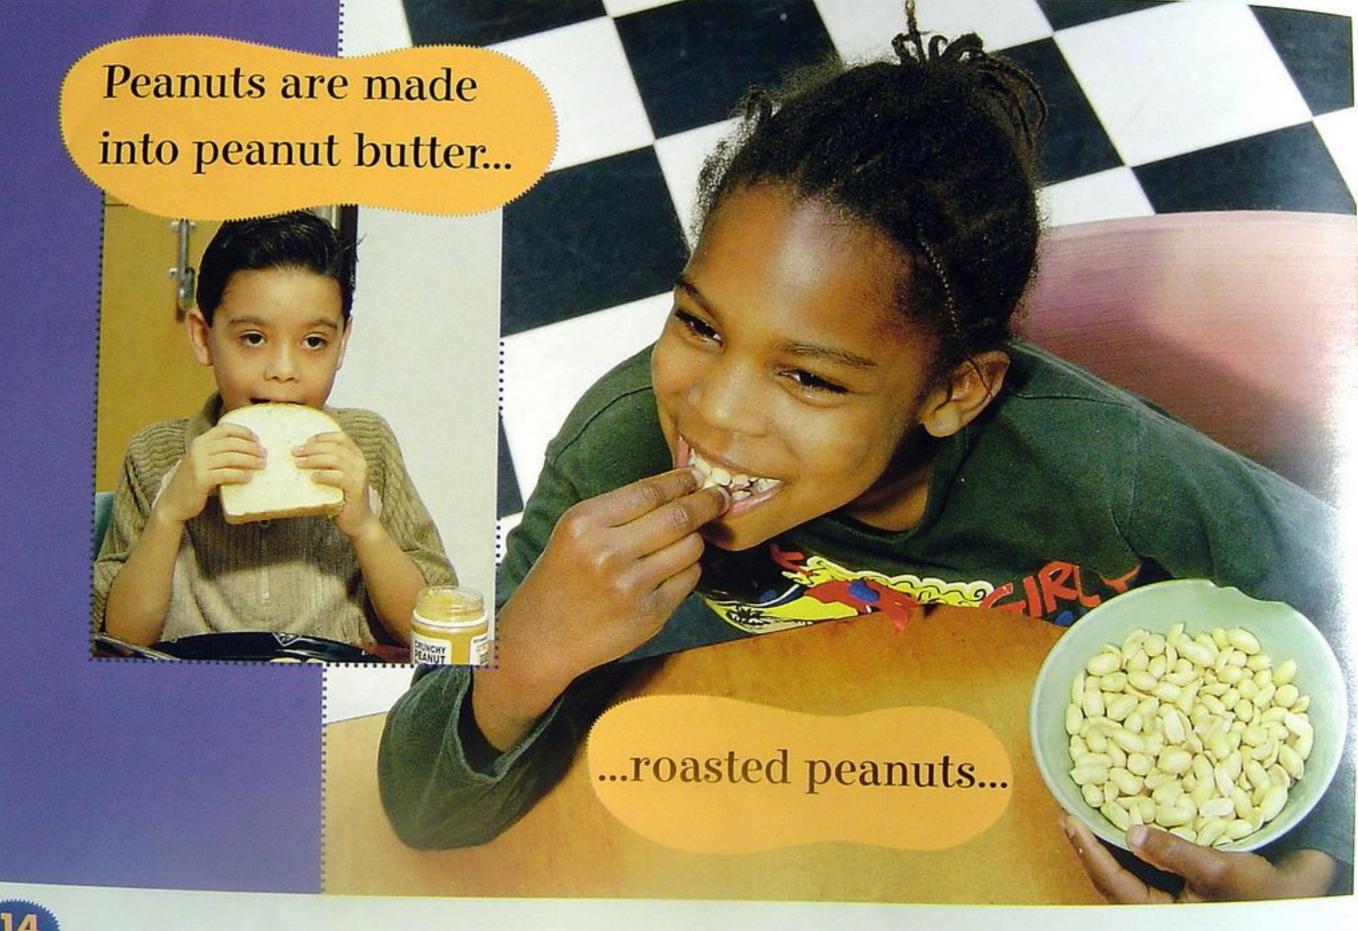

The plants are turned upside down to dry in the sun.

Another machine picks up the plants. It takes the peanuts off the plants.

The peanuts are put into wagons and taken to factories.

### Index

flowers	7,8
peanut butter2	
peanut oil3	
peg	
petals	8
plants	
pod	3, 9
roasted peanuts3,	14
seeds	ł, 5
soil	
stem	8
water	6

## .....Think and Discuss.....

How do you eat peanuts?
